

Youth Seminar

-Information for participation

Basic ideas of the content

- Experiencing and learning essentials - experiencing community - finding the trace of one's own life - new motives and orientation - living the simple - in connection with nature
- Development of action and decision-making powers, creating free spaces in which the future-oriented can express itself in personal life.
- Central is the daily work in the morning in small groups in the garden, the household, the building of the house and the handling of herbs and remedies (collecting and processing).
- afterwards there will be a one to one and a half hour learning offer/lesson in the plenum, which will deal with the factual background of the work (e.g. from biodynamic agriculture, permaculture, herbs and medicinal plants, house building).
- in the afternoon we want to offer choices: e.g. sculpting, painting, acting, musical, sport activities, games from intuitive pedagogy (sensory and trust exercises, contact, or just fun) with all or in smaller groups
- at the end of the afternoon and/or also in the evening: review of the day or individual discussions, biography evenings, life questions
- we would like to see a development of the contents in the course of the weeks: Receiving-getting to know each other-getting

active-growing together as a community-space for the questions of the individual-outlook for the future-farewell.
